

Felt Sit Upon

Need:

- 2 pieces felt 30x20 cm (we get them 5 for \$1.00)
- Glue gun or white glue
- Styrofoam chips
- Felt shapes for decoration

We actually ironed on the girl's names before they started them.

It was a great way to use up the Styrofoam. The Styrofoam is light weight and insulates.

For outdoor use you could cover with plastic.

Be sure you crush up the Styrofoam and stuff the sit-upon tightly.

The girls loved them.

We keep them at our meeting and take them with us to outings.

Judy
