⊙ = red

◼ = white

Supplies: 12 safety pins (larger than gold safety pin size)  
 White beads: 50  
 Red beads: 60

Starting from the top, thread the beads onto the pin. The pin will hang from the circular loop at the bottom of the pin. Each pin will have 10 beads.

Pry open the circular part of another pin. Thread the circular parts of the pins with beads onto this pin as far as they can go (to the back of the pin) in order. With pliers, close the circular part of the pin. The flag can now be pinned onto a shirt or hat without possibility of the bead pins falling off.
